DETAILED ACTION

Allowable Subject Matter

1. Claims 15-19 are allowed over the prior art of record. Examiner notes that Claims 1-14 have been cancelled by the applicant.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The Prior art does not teach or fairly suggest the subject matter of these claims. Independent Claim 15, when considered as a whole, is allowable over the prior art of record. The prior art of record fails to clearly teach or suggest the method of displaying a hardware rack and device images of automation equipment along with a register dialog with register text representation of the receiving locations of the hardware rack where dragging automation equipment module to a drop location creates a graphical link between the drop location and a respective register text representation. Specifically, the prior art fails to teach that dragging and dropping a device image creates a graphical link between the drop location and text representation. Dependent claims 16-19 further add limitations to the allowable subject matter of the respective independent claims, thus are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
